

```
14 function addToCart() {  
15     var coupElem= $("#couponButt");  
16     selItem = getItemInfo($(this));  
17     for(var i=0; i<availItems.length; i++){  
18         if(availItems[i].name == selItem.name)  
19             availItems[i].count -= selItem.quantity;  
20     }  
    ...  
}
```

A diagram consisting of two curved arrows. The first arrow starts from the `selItem` variable in line 16 and points to the `selItem.name` property access in line 18. The second arrow starts from the `selItem.quantity` property access in line 19 and points back to the `selItem` variable in line 16.
