

```
14  function addToCart() {  
15  var coupElem= $("#couponButt");  
16  selItem= getItemInfo($(this));  
    ...  
21  var price= selItem.price * selItem.quantity;  
22  if(!coupon.expired){  
    ...  
25  price -= coupElem.data('value');  
26  coupElem.addClass(customer.couponStatus);  
27  coupon.expired=true;  
28  }  
29  customer.payable += price;  
30 }
```

A diagram on the left side of the code block shows four curved arrows originating from the left margin of line 16. The arrows point to the left margins of lines 21, 22, 25, and 29, indicating a sequence of jumps or branches in the code execution flow.
